

MeningoUz — Chuqur dizayn auditi

Jahon darajasidagi epidemiologik saytlar bilan taqqoslash · Etalonlar: Our World in Data, CDC, WHO, ECDC, IHME/GBD + 30+ modern dark dashboard · Sana: 2026-05-24

1. Rang falsafasi — eng katta farq

CDC, WHO, ECDC **dark theme ishlatmaydi** — oq fon, sokin ko'k-yashil-kulrang. Sabab: epidemiologik ma'lumot uzoq o'qish uchun. CDC: navy `#005EAA`, oq, `#F5F5F5`. Ranglar faqat xabar uchun. IHME: firuza `#1ABFD5` brand, oq fon. Our World in Data: oq fon, navy `#1d3d63`.

MeningoUz muammosi: 6 ta neon rang parallel — hech qaysi semantik ma'no bermaydi.

Yechim — palitra:

Background `#0A0E1A` · Surface `#151B2D` · Border `#1F2937`
Text `#F1F5F9` · Muted `#94A3B8`
Primary `#3B82F6` · Danger `#EF4444` · Warning `#F59E0B` · Success `#10B981`

Bittadan ortiq accent rang ishlatmang.

2. KPI kartochkalari

CDC: bitta gauge — "Respiratory illness is very low" 1 soniyada xulosa. **IHME:** 4 ta katta raqam bir xil o'lcham/rangda (alohida faktlar). **OWID:** KPI yo'q, faqat chart.

MeningoUz: 277 / 23 / 231 / 183 turli o'lcham, rang, pozitsiya — xaos.

Hero KPI patterni: bir asosiy raqam (72px, oq) + 3 ta yordamchi (24px, muted), ranglarsiz, kontekst kichik matnda.

3. Data-ink ratio (Tufte)

WHO/OWID: chartlarda chartjunk yo'q, gridlines `opacity:0.1`, 1 accent rang.

MeningoUz: binafsha glow + sariq nuqta + gridline + gradient bir vaqtda.

Yechim: fon dekoratsiyasini 50% kamaytirish; faqat chart line accent rangda.

4. Tipografik ierarxiya

```
--display 48px/700/-0.02em  --h1 32px/700  --h2 24px/600  
--h3 18px/600  --body 16px/400/1.6  --label 12px/500/0.08em/uppercase  
--micro 11px/500/muted
```

2 shrift: Inter (UI) + JetBrains Mono (raqam). **Hech qachon font-weight 300 emas.**

5. Raqam formatlash

`font-variant-numeric: tabular-nums` barcha raqam ustunlariga. Katta raqam: `Intl.NumberFormat('uz-UZ')`.
WHO: `1.2M`, tooltip'da to'liq.

6. Xarita dizayni

Xato: Toshkent sh. 173 ta — sariq ko'rsatilgan, qizil bo'lishi kerak (150+). Data binding xatosi.

```
const getColor = (n) =>  
  n>=150 ? '#DC2626' : n>=51 ? '#F59E0B' :  
  n>=11 ? '#10B981' : n>=1 ? '#A7F3D0' : '#374151';
```

7. Spacing va whitespace (8pt grid)

```
xs 4 · sm 8 · md 16 · lg 24 · xl 32 · 2xl 48 · 3xl 64 (px)
```

Kartochka padding ≥ 24 px, sectionlar orasi 48px, elementlar 16px.

8. Responsive / mobil

```
@media (max-width:1024px){ .sidebar{width:64px} .label{display:none} }  
@media (max-width:768px){ .sidebar{transform:translateX(-100%)} + hamburger }
```

9. Semantik indikator (status)

CDC: Very Low / Low / Moderate / High / Very High — raqamli xavf yo'q.

MeningoUz: "Risk Ball 0" + "Past xavf" yashil — noto'g'ri signal.

Bo'sh holat → "Simptomlarni belgilang"; 1–2 → Past; 3–5 → O'rta; 6+ → Yuqori + "Shifokorga zudlik bilan murojaat".

10. Ma'lumot manbalari va ishonch

WHO: har chart ostida 3 qator metadata. OWID: "Cite/Reuse". CDC: "Updated on Fridays".

Har chart ostiga: [Manba: SSV Sanepid · Yangilangan 17.04.2026 · CC BY 4.0](#)

11. Informatsiya sustligi (progressive disclosure)

Bosh sahifa: 8 karta + 3 chart + 2 jadval bir ekranda.

1) bitta hero KPI → 2) 3 segment (Bugun/Hafta/Oy) → 3) bitta trend chart → 4) "Batafsil tahlil →".

12. Mikro-interaksiyalar

```
.card{transition:transform .2s, box-shadow .2s}
.card:hover{transform:translateY(-2px); box-shadow:0 12px 24px rgba(59,130,246,.15)}
```

+ count-up animatsiya, skeleton loader, chart crosshair.

13. Dark mode detallari (elevation)

```
Level 0 page #0F172A · L1 card #1E293B · L2 modal #334155 · L3 hover #475569
Border rgba(255,255,255,0.08) · Toza #000 ishlatmang
```

Harakatlar rejasi

1-bosqich **Tezkor:** palitrani 3 semantik+1 brand; sidebar responsive; xarita threshold (173=qizil); "Asosiy faktlar" dark surface.

- 2-bosqich** **Struktural:** Hero KPI qayta dizayn (IHME 4-column); tipografik shkala; tabular-nums; chart metadata.
- 3-bosqich** **UX:** Risk empty state; skeleton; hover/focus; count-up; a11y audit.
- 4-bosqich** **Strategik:** Public + Pro rejimlar (CDC modeli); Methodology sahifasi (WHO); API/CSV eksport (OWID).

Falsafiy xulosa

Epidemiologik sayt — estetik dashboard emas, xalq sog'ligi vositasi. CDC/WHO neon "cool" qilmaydi, chunki shifokor/vazirlar 8 soat o'qiydi. Tavsiya: **2 rejim** — "Public" (dark, ommaviy) va "Pro" (light, dense, professional).
